

Sign Up To Say 'NO' To More Gun Control

We, the undersigned residents of the Commonwealth of Pennsylvania, stand together in opposition to any efforts to infringe upon our Second Amendment right to bear arms. Proposals like House Bill 375, which calls for a statewide registry of all guns and requires gun owners to renew their registration annually for a \$10 fee per gun, do nothing to alleviate gun-related crimes. Instead, it only places more of a burden on law-abiding citizens who choose to own firearms.

We don't need more gun control laws in Pennsylvania, and we oppose any effort by the House Judiciary Committee to advance House Bill 375 or any other gun control measures.
